Objective

- **Staff Software Engineer** with **10+ years of experience** delivering high-quality software solutions in telecom, automotive, and finance sectors.
- Expertise in frontend (**React, Angular**) and backend (**Node.js, Python, PHP**).
- Proven ability to **lead teams** and develop enterprise-level applications under tight deadlines, with a focus on AI-driven projects.

Experience

Staff Software Engineer | Number 1 Auto Transport 2022 – Present

- Developed a **Next.js React MUI** frontend and a backend built with **Nest.js** and **Flask (Python)** microservices for nationwide vehicle shipping, integrating with dealerships and service providers.
- **Led 2 senior engineers**, overseeing code reviews and quality deliverables.

Senior Software Engineer | Motorola Solutions 2020 – 2022

- **Collaborated** with **cross-functional teams** to implement **React micro frontends** and **Node.js** backend for AI-driven applications, including license plate recognition, person tracking, and people counting.

Software Engineer II | Cox Automotive 2017 – 2020

- **Contributed** to a **React, Angular**, and **PHP** backend application responsible for driving 80% of company profits, leading to the startup's acquisition by Cox Automotive.

Full-Stack Developer | Pacific Northern 2015 – 2017

- **Developed** multi-site platforms using **Angular** and **PHP**, enhancing functionality by 35%.

Front End Developer (Intern) | Names Day info 2014 – 2015

- **Developed** the front-end with HTML, CSS3, and **JavaScript**, using Bootstrap to create responsive designs, which improved usability.
